by the German Bundestag

CAD2VR® is the easy-to-use business application enabling virtual meetings and sharing of CAD-models in virtual reality. Simply load your CAD-models and examine them at their original size in VR. Invite customers and colleagues from remote locations to multiuser sessions to discuss your CAD-models together.

- Discuss projects with your team or your customers
- Save travel expenses with remote meetings
- Intuitive usability
- Save costs with early error detection
- Evaluate space and service capabilities
- Verify ergonomics, design and completeness
- Optimized for large data sets
- Secure data transport and encryption
- Desktop mode for users w/o VR-headset
